Sunnyvale, CA 94089,(714) 721-5097,APintor.Jr@gmail.com

PROFESSIONAL EXPERIENCE

Colliers International – Commercial Real Estate Firm **San Francisco Bay Area, CA**
Corporate Advisory - Life Sciences & Technology Group *November 2024 - Present*

- Advise life science and technology companies on corporate real estate strategies supporting advanced manufacturing, R&D, laboratories, and long-term operating requirements.
- Maintain a comprehensive Excel inventory matrix of available Bay Area lab space, using lookup formulas and pivot tables to track availability, compare pricing, and identify options aligned with client requirements.
- Developed prospecting processes leveraging AI tools that connect company-specific trigger events to potential real estate needs, helping anticipate emerging opportunities and prioritize targeted outreach.

Positive Solutions, Inc – Applied Behavioral Analysis Provider **San Jose, CA**
Co-Founder, Managing Director - Business Strategy & Operations *March 2021 - November 2024*

- Developed growth strategy by evaluating funding sources, service demand, and staffing capacity; established recruiting targets and operating processes that supported more than 3× workforce growth within 18 months.
- Spearheaded a second-location launch from concept through operational readiness, owning site selection, lease negotiation, vendor coordination, and project timelines.
- Implemented CRM, internal operational systems, and AI-assisted workflows to streamline recruiting, support service delivery, and expand capacity as the business scaled.
- Evaluated new service offerings and funding opportunities, translating growth priorities into execution plans and reviewing progress through quarterly business reviews.

FabExchange, Inc – Secondary Market Capital Equipment Sales & Trading **Santa Clara, CA**
Director, Global Sales & Procurement *Oct 2017 - Feb 2021*

- Led and coached a sales team averaging 120% of annual quota per consultant while achieving 150–200% of personal quota year over year.
- Established a process to track end-user equipment install bases and built an Excel database matching available equipment to companies' existing tools and manufacturing requirements, improving prospect relevance and enabling more targeted outreach.
- Expanded end-user and partner relationships in Asia through recurring international travel, increasing market coverage and opportunity access in a highly competitive region.
- Assessed equipment opportunities through market analysis and valuation, then executed transactions by coordinating customer requirements, pricing, logistics, and contractual terms.

Senior Asset Consultant *April 2015 - Oct 2017*

- Managed and owned the complete B2B sales cycle, from prospecting and market analysis through negotiation and close.
- Assessed equipment opportunities through market analysis and valuation, then executed transactions by coordinating customer requirements, pricing, logistics, and contractual terms.
- Mapped global supply and demand for semiconductor manufacturing equipment to identify qualified buyers and sellers, focus resources on the highest-probability opportunities, and improve sales targeting.
